Announcement:

New Partnership for Air Ambulance Services

The Public Employees' Benefits Program (PEBP) is pleased to announce we have partnered with REMSA – Care Flight for air ambulance services in northern and rural Nevada. Starting July 1, 2017, REMSA has agreed to reduce the cost of air ambulance services to PEBP members on the Consumer Driven Health Plan (CDHP). As PEBP is a state taxpayer funded program of benefits, the program, its members, and the Nevada taxpayer all benefit from this partnership.

For all scheduled air ambulance transports in northern and rural Nevada, REMSA will be PEBP's exclusive provider for our CDHP members. For emergency air ambulance services, PEBP hopes facilities and dispatchers will utilize REMSA to the fullest extent possible as this new partnership will ensure PEBP members do not receive unaffordable high cost surprise balance billing for these critical services.

PEBP and REMSA are dedicated to providing Nevadans with high access to high quality healthcare at affordable prices. We look forward to developing additional processes with REMSA as our partnership continues!
