Important Questions	Answers	Why This Matters:
What is the overall deductible ?	In Network: \$0 Person/\$0 Family Out of Network: N/A Individual / N/A Family	This Plan does not require deductibles .
Are there services covered before you meet your deductible ?	Yes. Preventive care services are covered before you meet your deductible .	This Plan does not require a deductible, a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible .
Are there other deductibles for specific services?	No.	This Plan does not require deductibles .
What is the out-of-pocket limit for this plan ?	For network providers \$7,150 individual / \$14,300 Family for out-of-network providers	Out-of-pocket limit is the most you could pay in a plan year for covered services. If you have other family members on the plan, they have to meet their own out-of-pocket limits until the family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?	Penalty for failure to obtain pre-authorization for certain services, premiums , balance-billing charges, and health care this plan does not cover.	Even though you pay these expenses, they do not count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. See www.pebp.state.nv.us or call 1-800-336-0123 or 1-888-763-8232 for a list of participating providers.	This plan uses a provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work).
Do you need a referral to see a specialist ?	No.	You can see a specialist within the Plan's exclusive provider network without a referral .

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
