

Carson City COVID-19 Vaccine

Walk-Up Clinic

For PEBP members enrolled in the Consumer Driven Health Plan (PPO), Low Deductible Plan (PPO) and PEBP Premier Plan (EPO)

Are the vaccines safe? **Yes, they are.** Here are a few reasons why:

-  **Hundreds of millions of Americans have been safely vaccinated.¹**
VOLUNTEERS STEPPED UP. Nearly 120,000 people nationwide volunteered to test the vaccines before they became widely available.²
-  **IT DIDN'T HAPPEN OVERNIGHT.** The COVID-19 vaccines have been made possible thanks to decades of related research from other viruses and vaccines.
-  **BILLIONS FUNDED THE FAST TRACK.** The government and private companies contributed billions of dollars to fund effective and accelerated research and clinical trials.

 **SAFETY AT THE CENTER.** In addition to the FDA's Emergency Use Approval (EUA), the vaccines were evaluated by the Advisory Committee on Immunization Practices (ACIP) who appoints independent reviewers from various fields, like immunology, pediatrics, internal medicine and more, to check for safety and effectiveness.³ The FDA and CDC continue monitoring the vaccines' safety today.
